Science of
Innovation
through
Serendipity

"Night Science is the science of innovation through serendipity. By day, everybody knows where to go, but at night things are unclear and people don't see well. It is under these conditions that science can make a real difference" (Josef Penninger).

Josef Penninger

2000 & 2001: Top 10 list of the "hottest" scientists in 1998 and 1999 (1999 & 2000) in the world (according to ISI and based on most paper citations)

2003: Austrian Scientist of the Year Award

2004: Young Global Leader appointed by the World Economic Forum

Austrian **Science** Series:
Lecture of the Scientist of the Year

“NIGHT SCIENCE”

Science of Innovation through Serendipity

PROF. JOSEF PENNINGER

Director, Institute for Molecular Biotechnology
of the Austrian Academy of Sciences, Vienna, Austria.

ORGANIZED BY
THE OFFICE OF SCIENCE & TECHNOLOGY
EMBASSY OF AUSTRIA

TUESDAY, JANUARY 18TH, 2005
7:00 PM – 9:30 PM

EMBASSY OF AUSTRIA
3524 INTERNATIONAL COURT, N.W.
WASHINGTON, D.C. 20008

RSVP BY JANUARY 10, 2005

Business Attire

"**Night Science** is the science of innovation through serendipity. By day, everybody knows where to go, but at night things are unclear and people don't see well. It is under these conditions that science can make a real difference".

Prof. Penninger will discuss some of his projects and try to explain how serendipity changed things and led to discoveries that otherwise would not have happened.

Program _____

6.30 pm Registration

7.00 pm Begin

Welcome **HE Ambassador Eva Nowotny**

Laudation **Science Attaché Philipp Steger**

Musical Intermission

Lecture **Prof. Josef Penninger**
Q&A

8.30 pm Buffet Dinner
